

ECBSM2026

First Announcement

7th European Conference on Biodeterioration of Stone Monuments

<http://ecbsm.u-cergy.fr/>

The 2026's edition of **ECBSM** will take place at
CY Cergy Paris University, France on 5-6 November 2026

Maison internationale de la recherche (MIR) - 1 rue Descartes, 95000 Neuville-sur-Oise

Participation format

- Oral presentation in person or online
- Poster presentation in person

- The ECBSM provides an opportunity for exchange between **researchers, conservators, industry experts, and teachers** working on the **biodeterioration of cultural heritage materials** (monuments, archaeological sites, works of art outdoors or in museums) within the framework of **cultural heritage preservation**. Young researchers, particularly doctoral and master's students, are strongly encouraged to participate.
- Come and develop your network and broaden your scientific and technical horizons.

The conference will cover the following topics

- Interaction of living organisms with cultural heritage materials (stone, concrete, wood, metal, glass, etc.)
- Agents and mechanisms of biodeterioration
- Biodeterioration in the museum environment
- Biotechnology for the preservation of cultural heritage
- Sustainable heritage conservation
- Bioprotection and bioconsolidation

Full papers - Special Issue

- Participants will have the opportunity to submit their full text research or review paper related to the conference for publication in a special issue of **International Biodeterioration and Biodegradation**

More information to come
